VILOFOSS® PECKStone

easy - effective - economical

An all-natural mineral stone:

- ▶ Use from initial bird placement
- ▶ Simple and easy to implement
- ▶ Tested salmonella-free
- ▶ Approved for European organic production
- ▶ Available in organic*

Recommended Use:

For cage-free layers, broilers, or breeders, remove the PECKStone from the plastic tub. Turn the tub over on litter or scratch area. Position the PECKStone on top of the tub.

With turkeys, for best results, place PECKStones in the finishing barn prior to moving from the brooder chamber. The PECKStone can be positioned on top of the overturned plastic tub or modified to hang.

PECKStones should be evenly spaced, with approximately one (1) stone for every 500 birds.

*PeckStone-O 71233 has been found to be in compliance with the National Organic Program (NOP) Standards.

Ingredient Statement:

Calcium carbonate, monocalcium phosphate, salt, magnesium oxide, sodium sulfate, magnesium sulfate, wheat bran.
